Objective: University of Victoria graduate looking to contribute to the success of your team. Looking to use the organizational skills and commitment I developed during my competitive sailing career and UVIC undergraduate degree program to help your organization succeed. I am interested in working as a software developer.

Education:

2021 University of Victoria, Bachelor of Science - Computer Science
2015 Nanaimo District Secondary School Grade 12 French Immersion

Work experience:

2023 (June) – Current Web Developer at Mental Health Connections
2023 (June) – Current Nanaimo Yacht Club Race Team Coordinator
2022 (Nov)-2023 (Feb) Software Development at Vancouver Island University
2021 Canadien Forces Sailing Association Head Sailing Instructor
2019 Esquimalt Disabled Sailing Association Sailing Instructor
2018 Comox Bay Sailing Club Head Summer Sailing Instructor
2016-2017 Nanaimo Yacht Club Summer Sailing Instructor

Projects

Mental Health Connections: <https://mhconnections.ca/> **2023**

This is a self-assessment tool for keeping track of a person's mental health. This project I built and designed the website using react.js. For the backend I used firebase with some google cloud functions.

VIU 6PPDQ autosampler: [Article](#) **2022-2023**

This project took of information from a modified 3D printer attached to their mass spectrometer and outputted multiple graphs to make the information more readable. My contract was to help with the code for the 3D printer and translate the MATLAB code to Python and have it run on any computer at the lab with minimal commands.

Property Inspection: <https://ardent-forms.web.app/> **2022**

This project was aimed at eliminating the need for paper copies of property reports. The property inspectors can generate any form they need, take pictures, download the completed form, and access their information from any device. I built and designed this website with react.js and firebase as the backend.

Tutela Heath Care (Website only): <https://tutelacare.com/>

2022

My contact was to produce a website based on the clients designed. The site was made with HTML and CSS.

Sailing achievements:

49er Class:

- 2022 Oakcliff Triple Crown 1 & 2 – Second
- 2022 Canadien Championship (CORK) – Third
- 2023 European Championship - competitor
